

# AQUA-TEKNIK A/S

## SWIMMING POOLS

- **International Competition Swimming**
- **Jumping Towers**
- **Springboards**

One of the main markets for AQUA-TEKNIK is swimming facilities of all kinds.

Besides the water treatment systems, all types of equipment for the pool area is supplied.

- **Waterfun**

Waterplaygrounds for children is popular for hotels, campsites and as part of general waterworlds.

We design individual fun-activities.

- **Therapy**
- **Hotwater Training**
- **Lift Systems**

The combination of weightlessness, hot water training and water massage, is recognized as a functional and pleasant form of healing.

Therapy pools with environmentally friendly water treatment for hospitals and other institutions is an area where AQUA-TEKNIK is specialised.

## SWIMMING POOLS

- **Waterslides**

The top fun activity is an open or closed waterslide, indoor or outdoor.

The closed slide can be equipped with fiberoptic animations, which will give the optimal experience.

Only the imaginations sets the limit.

- **Climbing**
- **Playing**

Individually designed activities, in form of climbingwalls, watercanons, grottoes with watercurtains, fitted for teh exact purpose makes the site unique.

- **Wellness**
- **Relaxation**

AQUA-TEKNIK produces a whirlpool program for all purposes, covering the private area and public systems.
