

AQUA-TEKNIK A/S

WATER TREATMENT

CHARLOTTEHAVEN · COPENHAGEN

The stylish indoor pool area of Charlottehaven, an apartment block in Copenhagen, has no smell of chlorine, since the water treatment system is equipped with Elclozid - the environmentally most friendly disinfection system.

Chlorine electrolysis with Elclozid means that no transport, handling or storage of chlorine in the building is needed.

Complete water treatment system is installed by Aqua-Teknik, who also takes care of the maintenance.
