

AQUA-TEKNIK A/S

WATER TREATMENT

FORUM

This international amusement centre, which is often location for international rock and pop stars, is also housing a state of the art water amusement area.

Aqua-Teknik has designed and installed the water treatment system for the complete centre.

25 meter pool for international competitions, splash down pool for jumping towers, pool for water fun, whirlpool - everything is there.

The project of Aqua-Teknik also comprised delivery of climbing wall, jumping towers, slide and all the stainless steel equipment.
