

AQUA-TEKNIK A/S

WATER TREATMENT

HILTON COPENHAGEN

This new luxury Hotel is offering spa body treatment as part of the hotel facilities. Aqua-Teknik has installed the stylish stainless steel swimming pool, with complete water treatment facility.

The swimming pool is equipped with special light effects, to create the right atmosphere in the spa area. Furthermore power-jets in massive bronze are installed.

Elclozid electrolysis is used as water treatment, to avoid any smell of chlorine and as part of the environmental program of the Hotel.
